- WellCare Enhanced MTM (EMTM) and Targeted Intervention Services Launch February 2017
- MirixaPro<sup>SM</sup> Platform Best Practices:
  - Proper Case Documentation for Clear and Effective Patient Communication
  - Using Physician Communications to Help Improve Patient Outcomes

**WellCare Enhanced MTM Program (EMTM) and Targeted Intervention Services Launch February 2017**

*The WellCare  
EMTM Program  
will pay **\$65***

*per case for your services;  
Targeted Intervention  
services will pay **\$35**  
per case!*

WellCare and Mirixa are working with the Centers for Medicare and Medicaid Services (CMS) to test new and innovative concepts in patient care through Enhanced MTM and Targeted Intervention services.

This new model allows PDPs to vary the frequency, intensity and type of services based on beneficiary risk level with the goal of "right sizing" effective interventions to optimize medication use for all beneficiaries whose issues with medication management have caused, or are likely to cause, adverse outcomes.

WellCare patients in the CMS designated test model regions (AZ, FL, IA, LA, MN, MT, ND, NE, SD, VA, and WY) may be qualified by WellCare to participate in these programs.

For more details about these exciting new programs, [click here!](#)

Want to learn more? You can access all of the Mirixa Program and PSD documents on the MirixaPro platform. [Log on to MirixaPro](#) and sign in. Under "What's New" on the right side of the screen, select "Learn More" found under "Patient Care Programs" for a full list of 2017 MTM programs and their descriptions.

**Best Practices on the MirixaPro<sup>SM</sup> Platform**

Utilize the "Best Practice Resources" section of the MirixaPro platform for guidelines on the best way to get the most out of the platform!

This month's Best Practice tips cover:

1. Quality Pointers on Proper Case Documentation to Ensure Clear and Effective Patient Communication
2. Using Physician Communications to Help Improve Patient Outcomes

For a complete look at these best practice recommendations, [read more here!](#)
