- **Compliance Tips**
- **Aetna 30-90 Day Conversion Program Relaunches**

### MirixaPro Platform Enhancements and Updated Quick Picks Are Here!

#### WORKING SMARTER JUST GOT EASIER

The latest update of the MirixaPro platform features several enhancements that will ease your workflow while improving the level of care you can provide your customers. Platform updates include:

- An updated HRM list with alert messages for patients over the age of 65
- An expanded Clinical Quick Pick List that makes your platform pencil icon even more powerful
- The streamlined ability to document caregiver info and provider type within each case

## COMPLIANCE TIPS

- The condition section of the MTM case is designed to trigger condition specific questions on the worksheet tab. For that reason, do not use the “No Known Condition” option to bypass those condition specific questions. Doing so may trigger additional review and scrutiny of the case, because in order to have qualified for a CMR, the patient must have met qualifying condition criteria.
- The MAP/PML must be hand-delivered or mailed to the patient within fourteen (14) calendar days after the CMR session. The MirixaPro<sup>SM</sup> platform will not allow a CMR case to be closed until the MAP/PML document is generated.

### New Aetna 30-90 Conversion Cases Available Soon! Program Returns for 2017

#### Minimum Payment of \$25 for Patient Acceptance of a 30-90 Day Conversion!

The Aetna 30-90 Day Conversion Program will relaunch soon with the goal of converting patients from a 30-day fill schedule to a 90-day fill schedule. This program is designed to promote patient adherence. Cases are scheduled to arrive in pharmacy queues by the end of March.

Aetna will pay **\$10 for each served case** with an **additional \$15 for each targeted prescription the patient agrees to convert to a 90 day fill schedule**. Patients may be eligible for multiple 30-90 conversions.

Your pharmacy will be provided with a 60 day window to conduct these cases with no opportunity to extend the case. Please work these cases at your earliest convenience!

For help logging onto the MirixaPro platform, contact Mirixa Support toll free at (866) 218-6649. Online training is available.

### Mirixa Support
